# Abenezer Kifle

## Software Engineer
Web Designer and Developer

## About Me

Hi, I'm Abenezer! I love making websites that not only look good but also work great. I've spent a year working remotely with the team at oLab, getting really good at using tools like React and Next.js. I'm currently with the Commercial Bank of Ethiopia and also do freelance gigs. I've got a Computer Science degree (nailed a 3.36 GPA) and I'm all about solving problems and making cool stuff online. Whether it's working with a team from all over or coding alone, I'm up for the challenge. Let's make something awesome, shall we?
